1:30-3:30 p.m.  Written exam and trauma nursing process (TNP)
Overall course objectives

- Identify common mechanisms of injury associated with trauma.
- Describe pathophysiologic changes as basis for signs and symptoms.
- Describe nursing assessment of patients with trauma.
- Describe appropriate interventions for patients with trauma.
- Describe mechanisms for evaluating the effectiveness of nursing interventions for patients with trauma.

Psychomotor skill station objectives

- Demonstrate a standardized, systematic and organized approach to assessment outcomes/planning, intervention and evaluation.
- Perform a comprehensive initial assessment of the trauma patient.
- Analyze assessment finding to identify the patient problem.
- Determine priorities for nursing interventions based on assessment findings of the trauma patient.
- Implement appropriate interventions for the trauma patient.
- Describe a suitable plan of care for the trauma patient.
- Evaluate trauma patient responses to interventions.

Continuing education

The Emergency Nurses Association is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. This course offering is approved for 14 contact hours applicable for RN and LPN relicensure.

Course director

Julie Miller, BSN, RN, CEN

In accordance with the Americans with Disabilities Act, please advise Via Christi Hospital Educational Services if you have any disability that requires special materials and/or services so that appropriate arrangements can be made.

Trauma nursing course

Trauma nursing course general information

Enrollment: Registration is recommended at least one week prior to course. The TNCC 7th Edition Provider Manual is given at time of registration.

Pre-course online modules are required. They can be accessed at ena.org/tncc. Further instructions will be given after registration.

Cancellation policy: Fee will be returned if cancelled at least one week before course. Employees who do not attend or cancel will be required to pay full price for future course.

Course description

The TNCC Provider Course is a nationally recognized verification program designed to provide core-level trauma knowledge and psychomotor skills associated with the delivery of professional nursing care to the trauma patient.

It is recommended that the RN participant have at least six months of clinical nursing experience in an emergency care setting. Other healthcare professionals may audit the program on a space-available basis, receiving contact hours.

Registration

Trauma nursing course:
- Aug. 29-30, 2017
- Jan. 30-31, 2018
