

**Exhibit C**

**Ascension Via Christi Health, Inc.**

**AMOUNT GENERALLY BILLED CALCULATION**

7/1/2019

Ascension Via Christi Health calculates one AGB percentage using the “look-back” method and including Medicare fee for-service and all private health insurers that pay claims to the Organization, all in accordance with IRS Reg. Sec. 1.501(r)-5(b)(3), 1.501(r)-5(b)(3)(ii)(B) and 1.501(r)-5(b)(3)(iii). The details of that calculation and AGB percentage is described below.

The AGB percentages for Ascension Via Christi Health are as follows:

<b>Facility Name</b>	<b>Blended ABG%</b>
Ascension Via Christi Hospital in Manhattan	33.8%
Ascension Via Christi Hospital on Saint Francis	25.7%
Ascension Via Christi Hospital Pittsburg	35.5%
Ascension Via Christi on Saint Teresa	26.7%
Ascension Via Christi Rehabilitation Center	45.7%
Wamego Health Center	60.3%
Ascension Via Christi Clinic	55.1%

This AGB percentage is calculated by dividing the sum of the amounts of all of the hospital facility’s claims for emergency and other medically necessary care that have been allowed by Medicare fee-for-service and all private health insurers that pay claims to the hospital facility by the sum of the associated gross charges for those claims. The only claims that are utilized for purposes of determining the AGB are those that were allowed by a health insurer during the 12 month period prior to the AGB calculation (rather than those claims that relate to care provided during the prior 12 months).

Via Christi Health uses one rate for the all Hospital Facilities within health ministry which is the lowest calculated AGB of all the hospitals, 25.7%.

Via Christi Clinic uses the rate of 55.1% as calculated for that entity alone.
