

ICD-10 Training Modules – Detailed Instructions for Users with Existing Healthstream Accounts

Access to Courses

The ICD-10 training modules are available through Healthstream. The courses must be accessed through a computer connected to the Via Christi network by following these steps:

1. Open the Via Christi Intranet home page, “*The Source*.”
2. Click the Education tab in the blue bar close to the top of the page and select “Employee Learning Center.”
3. Select link for your ministry, and then click on the blue “Enter the Employee Learning Center” box on the following screen.
4. Select the link for your ministry, then enter your user ID and password on the next screen:
 - a. User ID = your 6 digit badge number or your physician number
 - b. Password = your 6 digit badge number, unless you have changed the password

Note: If your badge number only has 5 digits, please type a 0 (zero) in the first position. If you wish to change your password, after logging in, click on the Profile tab and select “Manage Account Information.”

Course Selections

Two to six courses have been assigned to each provider. Two courses have been assigned to all providers:

- “The Language of ICD-10: Specificity and Granularity”
- “Documenting in ICD-10-CM”

Most users will also have at least one course assigned based on your specialty - “Optimal Documentation for **,” where ** represents your specialty.

Continuing Medical Education

All of the courses assigned have been approved for *AMA PRA Category 1 Credits*TM. One quarter of an hour is worth .25 credits. You are not required to submit any documentation to earn the credits; just ensure you complete the course and accompanying quiz.
